EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Before the first paragraph on p. 1 of the specification, the following sentence was inserted: --This application is a divisional of 09/944,410 (now US Patent 6,821,446), filed on September 4th, 2001.--

The following is an examiner's statement of reasons for allowance: The examiner is withdrawing the outstanding rejection of the claims over Zare '300 in view of the Declaration filed by inventor Harada. In particular, the Declaration described how one of the inventors prepared a capillary where a coated section of the capillary is removed by the analogous method set forth by Zare '300 and established that the procedure suggested by Zare '300 would not have resulted in the claimed taper with slope for the third region of the capillary. Although Zare '300 appears to show a tapered portion in fig. 4, it is noted that fig. 4 is merely a drafted rendering of the interface between coated and uncoated portions of the capillary and there is no indication from the disclosure of Zare '300 that this drafted interface accurately reflects the actual structure that would result from the procedure of Zare '300. In the absence of an explicit suggestion by Zare '300 that this interface is actually tapered in the claimed manner, and because the Declaration demonstrated that the capillary of Zare '300 probably would not have resulted in

such a shown taper, the examiner does not believe the drafted representation of fig. 4 can be further utilized to support a rejection of the claimed subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to KAJ K. OLSEN whose telephone number is (571)272-1344. The examiner can normally be reached on M-F 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam X. Nguyen can be reached on 571-272-1342. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
